Health facilities to physically handicapped

2876. PROF. M.M. AGARWAL: Will the Minister of RAILWAYS be pleased to state:

(a) whether health facilities are available for the physically handicapped, aged and children at main railway stations in the country;

(b) if so, the details thereof; station-wise;

(c) if not, the reasons therefor; and

(d) the effective measures being taken by Government in this regard?

THE MINISTER OF STATE IN THE MINISTRY OF RAILWAYS (SHRI O. RAJAGOPAL): (a) to (b) Health of the general public is not within the purview of Railways and is a subject dealt with by the State Governments. At railway stations, health services are not maintained for passengers. However, first aid facilities are available for emergencies for which a First Aid Box is available with the Assistant Station Master/Deputy Station Superintendent. Frontline railway staff are trained in providing first aid. Besides, Assistant Station Master/Deputy Station Superintendent maintains a list of medical practitioners and a list of nearby hospitals with particulars such as telephone numbers, distance from station etc. for availing treatment in emergency. No exclusive health care services are provided to the physically handicapped, aged and children at railway stations. Wheel chairs and stretchers are, however, provided at important stations for the convenience of physically handicapped and aged persons. Further, amenities for physically handicapped passengers like signages, ramps with railing for barrier free entry, low level water taps, user friendly toilets, non-slippery walkways, parking spaces have been/are being progressively provided at important stations subject to the availability of funds. The details of the same are given in the Statement.
